HIS EXCELLENCY
DR. KOFI ANNAN
SECRETARY GENERAL OF UNO
NEW YORK

Subject: Request of admission
in UNO System
Date: 25.APR.2006

Excellency,

After more than three decades of political dedication in parties axis, i feel not only defrauded but also demotivated.

My attachment to politics was not to get power as a finality, but to use power in order to produce positive political, economical and social changes, as a right way to stimulate cultural transformations for peace, progress, democracy, human rights and a global citizenship on the world.

This is the second time that i apply directly for You, Excellency, concerning personal questions. Many other times, I had contacted Your illustrious collaborators.

My frustration is enormous, but not so large than my will to go on serving the root causes that I have been fighting for.

But now, I want work in another board or frame, in a comprising and inclusive model, favourable to integration, construction and real human promotion, independently of political, cultural, racial and other kind of particular identity.

I am a citizen of Guinea-Bissau, Professor on Political Science and Political Socioeconomics, with juridical education and experience, Former Prime

Minister and a member of UNESCO International Commission for World Peace Quest.

I am yet discharging functions of Personal Consellor of the President of the Republic (with the rank of Prime Minister), that I want to leave immediately, on account of the chief reason that i can't accept that a Minister of Justice violates Constitution and laws and nobody is able to exonerate him, due to ilegal and vicious solidarities, namely those of ethnicism, of collegueship and of corruption.

I want go on dreaming that world has space for dignity of character and that there are just causes to pursue. Otherwise, even the life miss its sense, before the apparent irrevocability of moral and material misery that the most fragiles remain condemned for.

Excellency, I will accept immediately any post that You decide to entrust me with, in Your high competence, for the preservation of my physical and moral integrity and for serving every person and my family.

Thank You very much, in anticipation.

Francisco José Fadul

(Delivered to UNOGBIS – Bissau, on 25.APR.2006)
